

Youth councillors Matt, Josh, Sean, Michael, Jack, Sophie, Danielle and Gracie took to the waters for a training Away Day on the River Stort to develop their team building skills and listening skills.

The Canal Boat Project ([www.canalboat.org.uk](http://www.canalboat.org.uk)) is a charity that hires canal boats to youth and community groups of all ages and abilities. The youth councillors learned general river etiquette and how to operate the locks and steer the boat.

They also found time to practise their film making skills and to attend a supervision session with their support workers.
