## Appendix 1: Design Code Compliance Checklist

## Tick or Cross the relevant boxes

\*The Local Planning Authority may require additional information pursuant to one or more of the requirements and principles set out in the following table.

| Design Code / Design Table                           | Applicable                    | Not<br>Applicable | Complied<br>with | Not<br>Complied<br>with | Council<br>Confirmation<br>(Leave free) |  |  |
|--|-------------------------------|-------------------|------------------|-------------------------|---|--|--|
| Chapter 2 - Maximum Building Heights                 |                               |                   |                  |                         |   |  |  |
| Table 1 - Maximum Building Heights                   |                               |                   |                  |                         |   |  |  |
| Chapter 3 – Parking Standards                        | Chapter 3 – Parking Standards |                   |                  |                         |   |  |  |
| Table 2 – Parking Standards                          |                               |                   |                  |                         |   |  |  |
| B1a - Office   |                               |                   |                  |                         |   |  |  |
| B1b – Research and Development                       |                               |                   |                  |                         |   |  |  |
| B8 – Storage and Distribution                        |                               |                   |                  |                         |   |  |  |
| 3.12 to 3.13 – Parking bay sizes                     |                               |                   |                  |                         |   |  |  |
| 3.14 to 3.18 – Cycle Parking Design                  |                               |                   |                  |                         |   |  |  |
| Chapter 4 – Design and Appearance                    |                               |                   |                  |                         |   |  |  |
| Table 3 – General Design and Appearance Requirements |                               |                   |                  |                         |   |  |  |
| Principle 1  |                               |                   |                  |                         |   |  |  |
| Principle 2  |                               |                   |                  |                         |   |  |  |
| Principle 3  |                               |                   |                  |                         |   |  |  |

| Principle 4   |                |       |  |  |  |  |  |
|---|----------------|-------|--|--|--|--|--|
| Principle 5   |                |       |  |  |  |  |  |
| Principle 6   |                |       |  |  |  |  |  |
| Table 4 – Specific Design and Appearance Requirements   |                |       |  |  |  |  |  |
| Principle 1   |                |       |  |  |  |  |  |
| Principle 2   |                |       |  |  |  |  |  |
| Principle 3   |                |       |  |  |  |  |  |
| Principle 4   |                |       |  |  |  |  |  |
| Principle 5   |                |       |  |  |  |  |  |
| Chapter 5 – Boundaries and Fencing  |                |       |  |  |  |  |  |
| Table 5 – Design code parameters for the erection of gates, fences, walls or other                            | means of enclo | osure |  |  |  |  |  |
| F1 - Fences erected adjacent to a public highway  |                |       |  |  |  |  |  |
| F2 - Gates erected adjacent to any public highway for the purposes of vehicular access and egress from a site |                |       |  |  |  |  |  |
| F3 - Fences erected adjacent to any residential property  |                |       |  |  |  |  |  |
| F4 - Fences erected on the boundary of the LDO site not adjacent to a public highway                          |                |       |  |  |  |  |  |
| F5 - Fences erected within Zone A around development plots  |                |       |  |  |  |  |  |

## Appendix 1: Design Code Compliance Checklist

| F6 - Gates erected within Zone A around Development Plots  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|
| Table 6 – Design code requirements for the provision of pedestrian and cycle connection              |  |  |  |  |  |  |
| C1 - Cycleway width  |  |  |  |  |  |  |
| C2 - Cycleway length   |  |  |  |  |  |  |
| C3 - Surface materials   |  |  |  |  |  |  |
| Chapter 6 – Boundaries and Fencing   |  |  |  |  |  |  |
| R1 - Landscape screening adjacent to a residential boundary  |  |  |  |  |  |  |
| R2 – Storage and distribution buildings in relation to a residential boundary                        |  |  |  |  |  |  |
| R3 – Maximum height of any storage and distribution buildings in relation to a residential boundary  |  |  |  |  |  |  |
| <b>R4</b> – Orientation of storage and distribution buildings in relation to a residential boundary  |  |  |  |  |  |  |
| <b>R5</b> – Large vehicle loading/ unloading and turning areas in relation to a residential boundary |  |  |  |  |  |  |
| R6 - Refuse areas in relation to a residential boundary  |  |  |  |  |  |  |
| <b>R7</b> - Internal private access roads in relation to a residential boundary                      |  |  |  |  |  |  |
| Chapter 7 – landscaping and Screening  |  |  |  |  |  |  |

| Table 7 – General Principles for Site Landscaping                   |  |  |  |  |  |  |  |
|---|--|--|--|--|--|--|--|
| Principle 1   |  |  |  |  |  |  |  |
| Principle 2   |  |  |  |  |  |  |  |
| Principle 3   |  |  |  |  |  |  |  |
| Principle 4   |  |  |  |  |  |  |  |
| Principle 5   |  |  |  |  |  |  |  |
