What do we mean by Governance

Governance is about how Harlow Council ensures that it is doing the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner.

It comprises the systems and processes, cultures and values, by which local government bodies are directed and controlled and through which they account to, engage with and, where appropriate, lead their communities.

Harlow Council (the Council) is committed to effective leadership, which is the foundation for effective corporate governance. The Council commits itself to:

- Providing a vision for the local community and leading by example in decision making and other processes and actions.
- Councillors and Officers conducting themselves in accordance with the highest standards of conduct.

Core Principles of Good Governance

The diagram opposite illustrates the seven core principles of corporate governance as identified by the Chartered Institute of Public Finance and Accountancy (CIPFA) and Society of Local Authority Chief Executives and Senior Managers (SOLACE) (2016).
Key roles of the Council

The Council has three main roles to play:

- **Community leader**: representing the interests of Harlow and its community, and holding others impacting on the town to account. Working with the community to agree and achieve shared objectives and ambitions, to ensure that Harlow keeps evolving as a community and as a place.

- **Service provider**: meeting the statutory duties placed upon it by Parliament to protect people, to exercise regulatory functions and to provide discretionary services where it is best placed to do so.

- **Commissioner** of services, where such services can best be provided by others.

The Council’s own transformation has been guided by the belief that just “good enough” is not good enough for Harlow. The Council is committed to doing as much as it can within the financial realities it has to face to make Harlow an even better and more enjoyable place to live, work and visit. It cannot do it all by itself and it will continue to work with the community and its partners to make the biggest impact it can for Harlow. As the Council’s strapline for its logo states we are: Working Together for Harlow.

In these tough economic times we must ensure that Harlow receives the recognition it deserves, and that we invest in our high priorities whilst reducing expenditure and activity in low priorities.

The Council is accountable to its tax payers for its stewardship and use of resources and seeks to:

- Provide excellent value for money
- Make the best use of resources available to it
- Protect the interests of local people.

Harlow Council is committed to working with others to build a strong sense of community and to encourage individual citizens to play a full and constructive part in the lives and development of their communities. The Council is democratically accountable to its citizens.
Monitoring and Maintaining the Code

Harlow District Council is committed to the principles of good governance identified in the CIPFA/SOLACE guidance and confirms its on-going commitment and intentions through the development, adoption, monitoring and maintenance of the Local Code of Corporate Governance (the Code). The Council recognises that achieving high standards of corporate governance will encourage our stakeholders to have confidence in us and allow the Council to undertake its role as community leader more effectively.

Monitoring the Code

Local Authorities should test their governance structures and partnerships against the principles contained in the Framework by:

- reviewing existing governance arrangements
- developing and maintaining an up-to-date local code of governance, including arrangements for ensuring ongoing effectiveness
- reporting publicly on compliance with their own code on an annual basis and on how they have monitored the effectiveness of their governance arrangements in the year and on planned changes.

An Annual Governance Statement is made by the Leader of the Council and the Chief Executive giving an opinion on whether the corporate governance arrangements are adequate and are operating effectively.

The Corporate Governance Group which is comprised of the Monitoring Officer, the Section 151 Officer, the Policy and Performance Team Leader, the Internal Audit Manager, the Legal Services Manager and other officers when they have specific contributions to make have been given the responsibility for:

- Overseeing the implementation and monitoring of the Code
- Reviewing the operation of the Code in practice on an annual basis
- Reporting at least annually to the Council on the compliance with the Code and any changes that may be necessary to maintain and ensure its effectiveness in practice.

In addition Internal Audit has been given the responsibility to review independently and to provide assurance within the annual report to the Audit and Standards Committee on the adequacy and effectiveness of governance arrangements.
The Annual Governance Statement will report on any aspects of the Code that are not yet in place and propose appropriate steps to address the areas to further enhance the corporate governance arrangements. This approach to annual reporting should ensure that the principles of corporate governance are embedded in the culture of the Council and are transparent to stakeholders and partners.

**Maintaining the Code**

The Head of Governance will be responsible for updating the Code and for ensuring ongoing relevance and application of the Code. The Council (via the Audit and Standards Committee) should discuss any significant revisions to the Code before its approval. Any significant changes should be reported to stakeholders and partners.
